EXT. MARS. DAY.

NATHAN (30s) and JASMINE (30s) inspect the damages of their spaceship after crash landing, along with their Andriod ANDY.

JASMINE
Status report?

NATHAN
Main engine damaged but not deadly.
Storage compartment damaged, only 3
days count of food left.

JASMINE
How long would it take to fix the
ship?

NATHAN
3 days.

JASMINE
Andy status report of the
softwares? Can you connect us to
the headquarters?

ANDY
They are unable to send help until
2 days later. We weren't the only
ship that crashed when that
happened.

JASMINE
Fuck.

ANDY
And this ship's battery isn't at
its best conditions...

Jasmine inspects Andy to check his battery.

NATHAN
We shouldn't waste our energy
supplies on him. We should focus on
fixing the ship and get the hell
out of here.

JASMINE
Andy is not some space debris you
toss out when shit happens. We also
need Andy to reboot the computers
and softwares to even start the
ship!

NATHAN

Andy give us the codes then we'll shut you down until we return back to the headquarters safely.

Jasmine glares at Nathan.

JASMINE

What the fuck are you thinking!?

NATHAN

THE CAPTAIN IS DEAD AND HE'S THE ONLY ONE WHO KNOWS THE CODES! If there's anyone else who might know the codes, that has to be him!

Nathan points at the dead captain's body laying outside the snowstorm. Jasmine takes a deep breathe.

JASMINE

Fine...Andy can you please give us the codes?

Andy takes a pause.

NATHAN

ANDY!!

ANDY

I'm programmed to only authorize Captains codes when it's needed.

Nathan walks away to find the tool box to fix the ship.

JASMINE

Andy we're stranded in Mars. What procedures can we do to get the codes?

ANDY

I'm technically not allowed to give you the codes....

Jasmine raises an eyebrow.

JASMINE

I'm listening...

ANDY

But if you guessed it on your own, that way we don't violate the rules.

JASMINE

Really Andy.

ANDY

This is the only way if you want the codes to jumpstart the ship and fly home. I cannot give you the codes directly.

JASMINE

Or else...?

ANDY

I really cannot give you the codes. I WANT to.

Jasmine sighs and takes a deep breathe.

JASMINE

What's the catch?

Andy takes a pause.

ANDY

You only have three tries.

JASMINE

Like an ATM card?

ANDY

Don't compare me with primitive bank systems at Wells Fargos or Bank of America.

Nathan scoffs at Andy.

NATHAN

Playing coy here huh.

JASMINE

He wouldn't play coy! He's trying to help here!

NATHAN

Why don't we take him apart and extract the hard drive!?

JASMINE

Would you focus on fixing the ship!?

Nathan scoffs and returns to fix the ship.
